How Does Reverse Transfer Work?

Reverse Transfer is a secure automated national solution for exchanging unlimited course/grade data across public, private and state lines.

It doesn't matter if the student transferred to another associate degree granting or bachelor’s level institution first, attended public or private institutions, or transferred across state lines. **If eligible, the student is awarded an associate degree.**

1. Sign a participation agreement
2. Work with your partner institutions to participate
3. Establish a Reverse Transfer account

**Best of All, Reverse Transfer Is Free!**
