

THE WYOMING TRANSCRIPT CENTER

What is the Wyoming Transcript Center (WTC)?

The Wyoming Transcript Center (WTC) is a web-based application that facilitates the secure and electronic exchange of transcripts and other sensitive student data between educational institutions and related entities. The Wyoming Transcript Center has been in existence for over 10 years through persistent support by the Wyoming Department of Education. The National Student Clearinghouse began managing the WTC in August 2015. Additionally, the WTC is the Wyoming Department of Education's only accepted product for public high schools to complete their annual WDE949 and WDE950 submissions to the Wyoming Department of Education for 9th grade student progress measurements and Hathaway Scholarship evaluation of recent high school graduates, respectively. Furthermore, the Wyoming Transcript Center, which is part of the Clearinghouse's National Transcript Center, has been certified as compliant with the Family Educational Rights and Privacy Act (FERPA) by iKeepSafe, a leading privacy nonprofit organization.

What does WTC do for Wyoming schools and students?

The Wyoming Transcript Center streamlines the process for high school counselors and registrars to exchange transcripts with other educational institutions and entities, including the NCAA Eligibility Center, NAIA Eligibility Center, and GEAR UP Programs within Wyoming and outside of the state. The increased efficiencies gained by using the WTC allow staff to spend more time guiding and counseling students to empower positive college selection based on individual student achievement and ability, which contributes to better postsecondary enrollment, persistence, and completion outcomes. Wyoming institutions also save on material costs that were previously required to print and mail transcripts.
